

Filamatic

Your Specialist in Liquid Filling

Filamatic, a division of National Instrument, LLC, has been serving the pharmaceutical, biotech, healthcare, contract packaging, cosmetic, chemical specialty and food industries since 1950. We provide a wide range of equipment that can be customized to suit your unique application and budget.

We meet the ever changing demands of our customers by providing high performance, reliable liquid filling systems that deliver value, accuracy, faster changeover, and low total cost of ownership year after year. Today as always, the heart of our business lies in the strong and lasting relationships we enjoy with our customers.

Monobloc Fill/Finish Packaging Systems

Monobloc Features

Countless Capabilities

The Monobloc performs a wide range of tasks such as sorting, feeding, filling, plugging, stoppering, crimping, capping, labeling, and accumulating in a compact footprint. This state-of-the-art liquid packaging system is capable of filling water-thin to viscous products into a variety of container shapes and sizes.

- 💧 A variety of liquid metering systems are available to provide a fill volume range of 0.5 ml to 500 ml per cycle
- 💧 User friendly HMI touch screen with menu-driven programs that electronically adjust operating parameters for quick and easy tool-less changeovers
- 💧 Proven servo motor driven technology
- 💧 Optional HEPA filtration system

Versatility, Precision, and Accuracy

Customized Fill/Finish Packaging System

Filamatic offers several models that can be customized to suit your unique application. The versatility, precision, and accuracy of the Monobloc make it ideal for:

- 💧 Unique container configurations
- 💧 Multiple fill volumes and container sizes
- 💧 Aseptic filling requirements
- 💧 Increased automation and efficiency
- 💧 Research and Development
- 💧 Compact production spaces
